

Nexans rolls out green wooden cable drum return programme

GREEN DRUMS

1. Green drum
- New drum (PEFC/FSC certified)
- Reused drum
- Returned drum

2. Plant
Green drum goes to Nexans Plant, cable is rolled on

3. Customer
The client/distributor/constructing site receives the drum

4. Picking Up
Empty drum is picked up on site, by logistic provider (selected by Nexans)

5. Repairing and Cleaning
(Returned drum)
The drum is repaired and cleaned up; or in some cases, scraped

0. Drum Supply
- New drum made with wood coming from sustainable forest (PEFC/FSC certified)
- Reused drum (second hand drum)
